

Motorized Full Height Special Needs Gates

AUTOGATE manufactures special needs gates in a variety of configurations.

These special needs gates enable access for wheelchairs, furniture etc. that cannot gain access through a turnstile.

Available in a range of colours with an option to match corporate colour schemes.

The toughened glass infill compliments the high quality finish and withstands continuous and prolonged use in medium traffic flow situations..

AUTOGATE special needs gates are designed to provide many years of maintenance-free service.

Special Needs Gates Allow :

- Time and attendance monitoring & staff control
- Un-manned secure entrances (preferably)
- Counting facilities which can be remotely monitored
- Ticket sales verification
- Coupling to metal detector alarm – emergency lock up
- Positive locking
