

Industrial Gate Automation

Sliding Gate Operators

Autogate Heavy Duty Gate Operator

- Gearbox : Industrial worm drive, oil filled, direct coupled
- Motor : 0.75 – 2.2kW TEFC 3 phase motors available
- Speed : Selectable with frequency adjustment 360mm/sec (180mm @ 50Hz)
- Controls : Inputs for all ancillaries, beams, loops, access control, transponders, remotes
- Softstart : Allows smooth acceleration, DC braking to slow gate down.
- Protection : Full motor overload protection in softstart
- Safety : Proactive – Beams and loops (optional)
Reactive – Anti crush safety edge on gate (optional)
- Gate Size : Up to 18m wide x 3m high on 0.75kW motor
1.1 – 2.2kW motors for larger heavier gates
- Gate Weight : Maximum 2500kg
- Motor Weight: 45kg

Industrial Gate Automation

Swing Gate Operators

Autogate Heavy Duty Gate Operator

- Gearbox :** Industrial worm drive, oil filled, direct coupled
- Motor :** 0.75 – 2.2kW TEFC 3 phase motors available
- Controls :** Inputs for all ancillaries, beams, loops, access control, transponders, remotes
- Softstart :** Allows smooth acceleration, DC braking to slow gate down.
- Protection :** Full motor overload protection in softstart
- Safety :** Proactive – Beams and loops
Reactive – Anti crush safety edge on gate
- Gate Size :** Up to 7.5m wide x 3m high on 0.75kW motor
1.1 – 2.2kW motors for larger heavier gates
- Motor Weight :** 100kg
